SUMMARY

Java Developer with **1+ years of experience** in designing and developing **scalable web applications** using **Spring Boot, Hibernate, and MySQL**. Proficient in **Core Java, RESTful API development, Microservices, and Agile methodologies**. Strong understanding of **Java 8 features, OOP, Design Patterns, and Messaging Systems (Kafka, RabbitMQ)**. Experienced in **Swagger, Postman, and SDLC**, with a passion for building **efficient and maintainable backend systems**.

EXPERIENCE

Java Developer

Techno Growth Software Solutions Pvt. Ltd. | Pune, India | **July 2023 – Feb 2025**

- **Backend Development:** Built RESTful APIs using **Spring Boot, Hibernate, and MySQL**.
- **Database Optimization:** Designed and optimized database schemas for **better performance**.
- **Security & Authentication:** Implemented **JWT-based authentication** for secure access.
- **Messaging Systems:** Integrated **Kafka and RabbitMQ** for asynchronous microservices communication.
- **Service-to-Service Communication:** Used **RestTemplate** and **FeignClient** for synchronous inter-service communication.
- **API Testing & Documentation:** Used **Postman & Swagger** for API testing and documentation.
- **Agile Development**: Worked in a Scrum-based team, participating in sprint planning, daily stand-ups, and retrospectives.

PROJECTS

Project 01: Wellington Motor Freight (TMS - Transportation Management System)

Role: Java Developer | Tech Stack: Java, Spring Boot, Hibernate, MySQL, REST APIs, Swagger, Postman

- Developed an **HRMS and invoicing system** to automate employee and financial operations.
- Created **RESTful APIs** for seamless communication between frontend and backend.
- Automated reporting, reducing **manual effort by 30%**.
- Designed and optimized **database schemas** for improved performance.

Project 02: ISKCON - Govardhan Eco Village, Mumbai

Role: Full-Stack Developer | Tech Stack: Java, Spring Boot, Hibernate, MySQL, REST APIs, Angular, TypeScript, HTML5, CSS3, Bootstrap

- Developed a **website for ISKCON** to manage **daily activities,event schedules, and visitor check-ins**.
- Built **real-time notifications** for activity reminders and spiritual events..
- Designed a **scalable and secure system architecture** using Spring Boot & Angular.
- Optimized website performance and ensured **cross-browser compatibility**.

EDUCATION

Bachelor of Engineering (B.E) – Computer Engineering
KBMN University | 2019 – 2022

TECHNICAL SKILLS

Backend Development:

- Java (Core & Advanced) – OOPs, Collections, Exception Handling, Multi-threading

- Spring Boot, Spring MVC, Hibernate, JDBC

- RESTful Web Services, Microservices, API Development

Frontend Development:

- Angular, TypeScript, Bootstrap

- HTML5, CSS3

Databases & Tools:

- MySQL, SQL Queries

- Postman, Swagger, Eclipse

Messaging & Communication:

- Kafka, RabbitMQ (Asynchronous Communication)

- RestTemplate, FeignClient (Synchronous Communication)

Version Control & DevOps:

- Git, CI/CD (Basic) Agile

Cloud & Deployment:

- AWS (Basic), Docker (Basic)

CERTIFICATIONS & TRAINING
Java Programming & Spring Boot Training – Mzos
SQL for Data Management – Mzos
Microservices Architecture & Development – Self-Learning

PERSONAL DETAILS
- Name   :   Tushar Patil
- DOB   :   19/06/1998
- Gender   :   Male
- Language Known :   English, Hindi, Marathi

DECLARATION
I do hereby declare that above information is to the best of my knowledge.
